Join us in Ottawa to Celebrate  
Canada's 150th Birthday and  
Innovation in Discovery Research.

### Conference Highlights:

Featuring a broad range of concurrent and joint sessions on membrane biology, trafficking, signaling, gene and regulatory networks, cancer biology, protein dynamics, regenerative medicine, neurobiology, metabolism, rare diseases and emerging technologies.

More than half of oral presentations will be selected from abstracts.

Trainee specific workshops and networking events.

Outreach events to engage public and politicians.

2017 is a year-long party for Canada and Ottawa is the place to be!
